TWO TRUTHS AND A LIE!

The **first two people** to reply with the correct answer get a Starbucks card!

1. **One of our listings couldn't close for a week after the expected closing because nobody had helped the buyers understand they had to have the money BEFORE closing. It took a week to liquidate and wire the money from their investments.**
2. **A seller kept having packages delivered to their old house. When questioned why it kept happening, she admitted that she didn't change her amazon address so her husband wouldn't see the newest purses she had bought.**
3. **Two days after going under contract on a townhome, the buyers got a call that the upstairs toilet had leaked for two days and damaged the entire room below it. They had to take it to the studs but the bright news is, the buyers got to pick out the new stuff!**
